

Career On A Drilling Rig

Career On A Drilling Rig

Offshore exploration and development wells are often drilled from mobile offshore drilling units (MODUs, pronounced "moe-dooz"). Depending on the water depth and remoteness of the location, these "rigs" may be jack-ups (up to 400 feet of water), or semisubmersibles, or drillships (up to 12,000 feet of water).

ABC was founded by Vassili Liovin a Hydrogeologist and Engineering Geologist in the early 80's. He was a second generation driller, in his younger years he worked with his father throughout the Middle East and Africa drilling for water.

ABC Liovin Drilling

In the Gulf states where there is a lot of offshore oil drilling platforms, there are offshore oil rigs that operate near land. Such oil rig companies sometimes hire temporary workers with no experience on day rates during periods of high activity.. All that the oil service employer needs from such temp oil workers is a strong back, the skill to follow instructions and the ability to swim so ...
