

First Migrants Ancient Migration In Global Perspective

First Migrants Ancient Migration In

A migration from Central Europe transformed the genetic make-up of people in Spain during the Bronze Age, a study reveals. DNA evidence shows the migrants streamed over the Pyrenees, replacing ...

Ancient migration transformed Spain's DNA - BBC News

Bird migration is the regular seasonal movement, often north and south along a flyway, between breeding and wintering grounds. Many species of bird migrate. Migration carries high costs in predation and mortality, including from hunting by humans, and is driven primarily by availability of food. It occurs mainly in the northern hemisphere, where birds are funneled on to specific routes by ...

Bird migration - Wikipedia

Human migration is the movement by people from one place to another with the intentions of settling, permanently or temporarily in a new location. The movement is often over long distances and from one country to another, but internal migration is also possible; indeed, this is the dominant form globally [citation needed]. People may migrate as individuals, in family units or in large groups.

Human migration - Wikipedia

The term Ancient, or Archaic, Greece refers to the time three centuries before the classical age, between 800 B.C. and 500 B.C.—a relatively sophisticated period in world history. Archaic Greece ...

Ancient Greece - HISTORY

Human migration: Human migration, the permanent change of residence by an individual or group; it excludes such movements as nomadism, migrant labour, commuting, and tourism, all of which are transitory in nature. A brief treatment of human migration follows. For further discussion, see population: Migration.

White Flight From Sweden's Ghettoized Cities. A new study from Linneuniversitet confirms that Sweden is becoming more and more segregated along ethnic lines as a direct result of mass immigration from the Middle East and North Africa. Those who move first are highly educated and/or have a high-income giving credence to resurgent Swedish nationalism.

The following excerpt from Pennsylvania Germans, A Persistent Minority by William T. Parsons is posted for its excellent discussion of conditions confronting early 18th century German immigrants on the voyage to America and upon arrival at the Port of Philadelphia. It is probable that these or similar conditions were experienced by our Mosier and Culp immigrant ancestors.

"The winds were favourable for Polynesian migration in this couple of hundred year period," Ian says. The new data suggests the epic voyage could have been achieved in a couple of weeks during these climate windows, four times faster than during other periods with less favourable wind conditions - especially when travelling in the type of canoe examined by Dilys' team.
