Private Rights In Public Resources

A public-private partnership (PPP, 3P or P3) is a cooperative arrangement between two or more public and private sectors, typically of a long-term nature. Governments have used such a mix of public and private endeavors throughout history. However, the late 20th century and early 21st century [when?] have seen a clear trend towards governments across the globe making greater use of various ...

Property rights are theoretical socially-enforced constructs in economics for determining how a resource or economic good is used and owned. Resources can be owned by (and hence be the property of) individuals, associations or governments. Property rights can be viewed as an attribute of an economic good. This attribute has four broad components and is often referred to as a bundle of rights:
