Nielsen Norman Group: UX Training, Consulting, & Research

In commerce, customer experience (CX) is the product of an interaction between an organization and a customer over the duration of their relationship. This interaction is made up of three parts: the customer journey, the brand touchpoints the customer interacts with, and the environments the customer experiences (including digital environment) during their experience.

Customer experience - Wikipedia

This article is for people who already have a basic understanding of journey mapping, but if you are totally new to the tool and how to create one, UX Lady has a great example where she uses the metaphor of baking as a way to map out experiences. Journey mapping is a tool used often at the analysis ...
